Summary

Intermediate web developer with 1+ years of experience in building and maintaining high-traffic websites and web applications. Skilled in **HTML, CSS, JavaScript, PHP, and MySQL**, with experience in using a variety of frameworks and libraries, including Laravel. Eager to learn new technologies and stay up-to-date on the latest trends.

Education

Bachelor of Software Engineering

2021-2024

Virtual University of Pakistan

Experience

Local Projects:

Final Year Project:

Engineered a sophisticated online ticket reservation system website utilizing HTML, CSS, JavaScript, and SupaBase. Crafted an intuitive user interface, facilitating seamless browsing, selection, and purchase of tickets, enhancing user experience and functionality.

To-Do List App:

Created a dynamic To-Do List application using HTML, CSS, and JavaScript, featuring an intuitive interface for adding, editing, and deleting tasks. Leveraged JavaScript to enable seamless storage and retrieval of tasks using local storage, ensuring a smooth user experience.

Live Projects:

WordPress Websites and Portfolio:

Crafted bespoke WordPress websites using Elementor Pro, adeptly tailoring themes and templates to deliver distinctive, user-centric experiences. Skillfully managed domain portfolios, ensuring seamless registration, renewal, and DNS management for high-profile clients, including Kidmall.pk and Lybaamehdi.pk.
